INDEX

TOMUS XXXVIII

<i>saad, M.</i> , On the supersolvability of finite groups. I	57
<i>air, J.</i> , A geometric description of the inner aperture of a convex set	237
<i>audisch, A.</i> , Subgroups of semifree groups	19
<i>ерман, Д. Л.</i> , Устойчивость квадратурных формул Гаусса—Якоби и неустойчивость сходимости в среднем интерполяционного процесса Лагранжа при расширении матрицы узлов интерполяирования	83
<i>osbach, B.</i> , Concerning bricks	89
<i>Cornish, W. H.</i> and <i>Stewart, P. N.</i> , Direct and subdirect decompositions of universal algebras with a Boolean orthogonality	9
<i>Davey, B. A.</i> and <i>McCarthy, M. J.</i> , A representation theory for the variety generated by the triangle	241
<i>erdős, P.</i> and <i>Vértesi, P.</i> , Correction of some misprints to our paper	263
<i>Gardner, B. J.</i> , A remark on strict radical classes of groups	61
<i>Goodenough, S. J.</i> and <i>Mills, T. M.</i> , Asymptotic estimates for quasi-Hermite—Fejér interpolation	151
<i>Hainzl, J.</i> , On commuting linear partial differential operators	1
<i>Heyman, G. A. P.</i> , <i>le Roux, H. J.</i> and <i>Jenkins, T. L.</i> , Essentially closed classes of rings and upper radicals	63
<i>Jenkins, T. L.</i> , <i>le Roux, H. J.</i> and <i>Heyman, G. A. P.</i> , Essentially closed classes of rings and upper radicals	63
<i>Joó, I.</i> and <i>Lažetič, N.</i> , Estimate for the difference of the second derivative of partial sums arising by non-negative selfadjoint extensions of Sturm—Liouville operators	117
<i>Kaya, A.</i> and <i>Koc, C.</i> , Semicentralizing automorphisms of prime rings	53
<i>Koc, C.</i> and <i>Kaya, A.</i> , Semicentralizing automorphisms of prime rings	53
<i>Krall, A. M.</i> , The Bessel polynomial moment problem	105
<i>Laczkovich, M.</i> and <i>Petruska, G.</i> , Remarks on a problem of A. M. Bruckner	205
<i>Lažetič, N.</i> and <i>Joó, I.</i> , Estimate for the difference of the second derivative of partial sums arising by non-negative selfadjoint extensions of Sturm—Liouville operators	117
<i>Legiša, P.</i> , Groups of Banach space isometries	215
<i>le Roux, H. J.</i> , <i>Heyman, G. A. P.</i> and <i>Jenkins, T. L.</i> , Essentially closed classes of rings and upper radicals	63
<i>McCarthy, M. J.</i> and <i>Davey, B. A.</i> , A representation theory for the variety generated by the triangle	241
<i>Mills, T. M.</i> and <i>Goodenough, S. J.</i> , Asymptotic estimates for quasi-Hermite—Fejér interpolation	151
<i>Móricz, F.</i> , On Walsh series with coefficients tending monotonically to zero	183
<i>Müller-Pfeiffer, E.</i> , Über die Kneser-Konstante der Differentialgleichung $(-\Delta)^m u + q(x)u = 0$	139
<i>Pandey, P. N.</i> , On decomposability of curvature tensor of a Finsler manifold	109
<i>Petruska, G.</i> and <i>Laczkovich, M.</i> , Remarks on a problem of A. M. Bruckner	205
<i>Rossa, R. F.</i> , Radicals of rings and subrings	69
<i>Sárközy, A.</i> , On additive representation of integers. II	157
<i>Schmidt, E. T.</i> , On finitely projected modular lattices	45
<i>Schoißengeier, J.</i> , On the discrepancy of sequences (αn^σ)	29
<i>Srivastava, K. B.</i> , Proof of Jackson's theorem for differentiable functions. II	15
<i>Stewart, P. N.</i> and <i>Cornish, W. H.</i> , Direct and subdirect decompositions of universal algebras with a Boolean orthogonality	9

<i>Stewart, P. N.</i> , Quasi-ideals in rings	23
<i>Szabó, S.</i> , On mosaics consisting of multidimensional crosses	19
<i>Tkačenko, M. G.</i> , Examples of connected left-separated spaces and topological groups	25
<i>Tran Trong Hue</i> , The topological characterization of allowable partitions of the class of unequivalental vocal rings	22
<i>van Leeuwen, L. C. A.</i> and <i>Wiegandt, R.</i> , Semisimple and torsionfree classes	71
<i>Vértesi, P.</i> and <i>Erdős, P.</i> , Correktion of some misprints to our paper	26
<i>Wiegandt, R.</i> and <i>van Leeuwen, L. C. A.</i> , Semisimple and torsionfree classes	77
